SUMMARY

Full Stack Developer with hands-on experience in MERN Stack and Python. Skilled in building authentication-based web applications, REST APIs, and scalable CRUD systems. Strong in backend development with MongoDB and end-to-end project implementation.

EXPERIENCE

Technical Support Intern (Full Time)

Aug '25 — Present

Icanio Technologies

- Developed and enhanced user interface components using React.js and Tailwind CSS for an internal web application
- Implemented responsive and reusable UI components to improve usability and consistency across the application
- Collaborated with backend developers to integrate frontend interfaces with APIs and ensure smooth data flow in the application.
- Assisted in identifying UI issues, debugging frontend errors, and improving overall user experience.

EDUCATION

Master of Computer Applications, Kongu Engineering College (GPA: 8.00)

2024 — 2026

BSC in Computer Science, Mannar Thirumalai Naicker College (GPA: 7.61)

2021 — 2024

SKILLS

Frontend HTML, CSS, React.js

Backend Node.js, Express.js, Fastapi

Programming Languages Python, JavaScript, C, Java

Database MongoDB, MySQL, PostgreSQL

Tools & Platforms Git, GitHub, VS Code, Postman, MongoDB Compass, Docker Hub

PROJECTS

GROWFOLIO (Ongoing) [Link](#)

- Developing a SaaS-based portfolio and growth tracking platform for developers and creators
- Implementing features such as portfolio management, project tracking, analytics dashboard, and authentication
- Designed scalable backend APIs and integrated PostgreSQL database for structured data management
- Tech: React.js, Django, PostgreSQL, REST API

SPEECH RECOGNITION NOTES APP [Link](#)

- Developed a speech-to-text note-taking app with FastAPI backend and React frontend.
- Implemented rich-text editing, pdf exporting features for better user experience
- Tech: FastAPI, Python, PostgreSQL, SQLAlchemy, React.js, Uvicorn

WORK HUNT Job Portal [Link](#)

- Built a MERN-based job portal supporting role-based authentication for job seekers and employers
- Designed RESTful APIs and handled backend validation and error handling
- Tech: React.js, Node.js, Express.js, MongoDB, JWT
